

# Medicines book

- Your clinic will teach you how to use this Medicines book.
- The clinic uses this Medicines book to check how things are going.

Every time you give medicine, write in this book or use the stickers.

# How worrying is it?

Ask your loved one to look at the scale and pick the number or the face that matches how they feel. The numbers are a scale from 0 - 10. 0 means the symptom is not worrying at all and 10 means it is really worrying.

If your loved one cannot tell you how they feel, trust your own judgement and give a rating for the symptom on behalf of the person.

You will need to record the symptom rating in this Medicines book before, and about 20 minutes after, giving medicine under the skin. This helps you to decide if the medicine has worked.
